## **HEALTH FUTURES UTC DRESS CODE**

As recognition of the growing maturity and independence of the students and the need for students to work with our employer partners, our dress code is based upon business principles. We believe that a business dress code will promote fairness and equality for males and females as well as giving them a more adult image.

### **The dress code is designed to:**

- Promote a sense of pride in the UTC in line with our ethos, values and beliefs
- Encompass a sense of community and belonging
- Support positive behaviour and discipline
- Be practical, smart and business like
- Identify students within Health Futures
- Prevent students from coming to the UTC in fashion or 'designer' label clothes that could be distracting in lessons or create a sense of competition
- Make students feel equal to their peers in terms of appearance and helps nurture cohesion between different groups of students.
