Our lawful basis for collecting and processing pupil information is defined in GDPR under Article 6. The following elements of the article apply:

- a) Data subject gives consent for one or more specific purposes.
- b) Processing is necessary to comply with the legal obligations of the controller.
- c) Processing is necessary to protect the vital interests of the data subject (pupil, parent/carers)

Collecting pupil information

A full breakdown of the information we collect on pupils can be found in the school's data mapping document.

On some occasions, we process personal information on the basis of consent, for example, when we wish to take and use pupil images. Consent can be withdrawn at any time. We will make this clear when we ask for consent, and explain how consent can be withdrawn.

How we use the information you provide to us

Some of the reasons listed above for collecting and using pupils' personal data overlap, and there may be several grounds, which justify our use of this data. Such reasons include:

The submission of the school census returns, including a set of named pupil records, is a statutory requirement on schools under Section 537A of the Education Act 1996. As the school census is on a statutory basis, this means that schools do not need to obtain parental or pupil consent to the provision of information, which ensures schools are protected from any legal challenge that they are breaching a duty of confidence to pupils and also helps to ensure that returns are completed by schools.

Storing pupil data

Personal data we collect as part of the student application process is stored in line with our data protection policy and records management policy. You may withdraw your application at any time, at which point, the data will be destroyed in line with our data retention schedule as outlined within our data mapping document. Please contact us if you would like further clarification on our retention timescales.

We have data protection policies and procedures in place, including strong organisational and technical measures, which are regularly reviewed. Further information can be found on our website.

Who we share pupil information with

We do not share information about you with any third party until you are legally offered and have accepted a place at our school, at which point our Privacy Notice to Students and Parents will apply.

If we transfer personal data to a country or territory outside the European Economic Area, we will do so in accordance with data protection law.

Please contact our Data Protection Lead (see contact details at the end of this privacy notice) who can provide you with further details of who we share pupil and parent information with as recorded in our data mapping document.

Why we share pupil information

We do not share information about our pupils with anyone without consent unless the law and our policies allow us to do so.

We share pupils' data with the Department for Education (DfE) on a statutory basis. This data sharing underpins school funding and educational attainment policy and monitoring. We are required to share information about our pupils with our local authority (LA) and the Department for Education (DfE) under section 3 of The Education (Information about Individual Pupils) (England) Regulations 2013.

Data collection requirements

To find out more about the data collection requirements placed on us by the Department for Education (for example; via the school census) go to <https://www.gov.uk/education/data-collectionand-censuses-for-schools>.

The National Pupil Database (NPD)

The NPD is owned and managed by the Department for Education and contains information about pupils in schools in England. It provides invaluable evidence on educational performance to inform independent research, as well as studies commissioned by the Department. It is held in electronic format for statistical purposes. This information is securely collected from a range of sources including schools, local authorities and awarding bodies.

We are required by law, to provide information about our pupils to the DfE as part of statutory data collections, such as the school census. Some of this information is then stored in the NPD. The law that allows this is the Education (Information about Individual Pupils) (England) Regulations 2013.

To find out more about the NPD, go to <https://www.gov.uk/government/publications/national-pupildatabase-user-guide-and-supporting-information>.

The department may share information about our pupils from the NPD with third parties who promote the education or well-being of children in England by:

- conducting research or analysis
- producing statistics
- providing information, advice or guidance

The Department has robust processes in place to ensure the confidentiality of the data is maintained and there are stringent controls in place regarding access and use of the data. Decisions on whether the DfE releases data to third parties are subject to a strict approval process and based on a detailed assessment of:

- who is requesting the data
- the purpose for which it is required
- the level and sensitivity of data requested: and
- the arrangements in place to store and handle the data

To be granted access to pupil information, organisations must comply with strict terms and conditions covering the confidentiality and handling of the data, security arrangements and retention and use of the data.
